

SURVEILLANCE AND ALERT FRAMEWORK FOR
ANIMAL RISK IDENTIFICATION

PROBLEMS

Increasing threat of animals in habitable areas

Locals a threat to animals as well

Solutions

The background features a dark teal gradient. A large, faint, light green hand is shown holding a globe. Scattered around the hand are various symbols: the letters 'A', 'R', and 'i' in a serif font, and the dollar sign '\$' in a script font. A dark, curved shape, possibly representing a horizon or a part of the globe, is visible on the right side.

Solution 1

- Pre-existing cameras to track and alert civilians
- Forest Authorities —> Police
- Police —> People?
- Eliminating Middlemen

Solution 2

Reverse of solution 1

Civilians alert forest authorities

Report button

Eliminating Middlemen (Again)

Broader Aim

Beneficial to Adivasis/Indigenous People

Socially contributing

Not a huge revenue venture

Simple and Accessible

Can alert civilians (using surveillance)/Civilians can send alerts back

Eliminating middle men

Simple and Accessible

Socially Contributing
